

Message

The sacrifice of the martyrs who laid down their lives for the liberation of the oppressed people of the world and nationalities shall never go waste!

Observe martyrs' memorial week with revolutionary enthusiasm from 2024 July 28th to August 3rd!

Mobilise the vast masses into people's struggles and guerrilla war to fail 'Operation Kagaar' – The counter revolutionary war on the people!

Make determined efforts to advance the Indian Revolutionary movement with the Strategy and Tactics of Protracted People's War!

A call from the Central Committee of the CPI (Maoist) to the Party ranks, PLGA Commanders and fighters, the various revolutionary organs of the people, workers, peasants, students, intellectuals and the entire oppressed people!

**Central Committee
CPI (Maoist)**

**Observe martyrs' memorial week from 2024 July 28th to August 3rd!
Mobilise the vast masses into People's struggles and
Guerrilla war to fail 'Operation Kagaar' –
The counter revolutionary war on the people!
Make determined efforts to advance the Indian
Revolutionary movement with the Strategy-Tactics of
Protracted People's War!**

Dear Comrades and people!

We will be observing the martyrs' week from the 28th of July this year amidst the offensives of the war – the decisive war – 'Operation Kagaar' on the people unleashed in an utmost cruel manner jointly by the Brahmanic Hindutva Fascist central government and the state governments. We continue the revolutionary tradition of rededicating ourselves to achieve the ideals of the comrades who laid down their lives in the fight against imperialism and comprador exploitive classes with the objective to accomplish New Democratic Revolution in our country and establish Socialism-Communism all over the world as a part of the World Socialist Revolution.

In the past one year, 200 of our beloved comrades and revolutionary people became martyrs in the path of Protracted People's War formulated by the great leaders of Indian Revolution, the founder leaders and teachers of our party, Comrade Charu Mazumdar and Comrade Kanhai Chatterjee. Among them 56 are women comrades and village women. The martyred leadership comrades include – Comrade Dama (Sujan Singh Madkam, Rajesh), member of Maharashtra-Madhya Pradesh-Chhattisgarh (MMC) Special Zonal Committee, our beloved senior Comrade Joganna (Cheemala Narasayya), Regional Committee member in West Sub-Zone of Dandakaranya and alternate member of Telangana State Committee and Commander of the Central Region Company– 2 Comrade Sagar (Anne Santosh, Sridhar). Two comrades of Bihar and Jharkhand, 7 of Telangana, 174 of Dandakaranya, 1 of Andhra-Odisha Border (AOB) Special Zone, 8 of MMC, 7 of Odisha and 1 of Western Ghats were martyred in the past one year. Rank wise, 2 SAC/SZC/SC comrades, 1 RC rank comrade, Comrade Budhram Munda of Bihar-Jharkhand (Commander), 10 AC/DvC/DC members – Comrade Nagesh (Paddam Ramal, West Bastar) of Dandakaranya, Deval

(Company Commander in Battalion), Manoj (Kopakande Usendi, South Gadchiroli), Shankar (Siripelli Sudhakar, North Bastar), Mallesh (CyPC member, Company-10), Korsar Samar (South Gadchiroli); Comrades Vargesh and Mangu of Adilabad district of Telangana, Comrade Dasru of KKBN Division in Odisha, Comrade Kranthi (Muchaki Beede, Sajanthi) of MMC; 30 AC/PPC comrades; 58 Party/PLGA members and 77 revolutionary people became martyrs. We are yet to receive the details of 7 comrades. Sixty-five comrades were martyred in the heroic self-defence actions of PLGA forces to overcome the encirclement-elimination attacks of the enemy forces, 98 comrades in the massacres and fake encounters of the enemy and 4 comrades were murdered through poison through an enemy agent. Two women comrades and a village woman were caught and cruelly sexually assaulted and shot. In the constant shelling of mortars, two boys died when one unexploded shell in a field exploded accidentally later while they were playing. This is nothing but a murder by the police. Five comrades became martyrs in a heroic fight against the enemy in the guerrilla actions made by PLGA. Thirteen comrades died of ill health and 8 comrades in accidents. We need to know the details of two more comrades. The CC of the party pays humble revolutionary homage to all the martyrs who made highest sacrifices to achieve the objective of revolution. It pledges to continue their ideals until the end.

There were several losses in the International Communist Movement in the planned brutal fascist attacks unleashed by the imperialists and their comprador ruling classes in the past one year, with their objective to eliminate the Socialist revolutions in the capitalist-imperialist countries and New Democratic revolutions, nationality liberation struggles in semi-colonial, semi-feudal countries and the worldwide anti-imperialist national democratic movements going on as a part of the World Socialist Revolution to root out imperialism from the earth. Comrade Toto (Dionisio Micabalo, Jeff Delong), member of the Polit Bureau of the CC of the Communist Party of Philippines (CPP) became a martyr in the battle with the Armed Forces of Philippines in Gingoog city in Misamis Oriental province on 26th July 2023. Member of the CC Comrade Sandy (Josephine Mendoza) breathed her last on 11th October 2023. Senior workers' leader Comrade Jude (Thaddeus Fernandez) of Philippines became a martyr on 29th September 2023 in an attack of the armed forces of the state. Comrade Zahir, a leader of the 7th Khas Regional Basic unit of the Communist (Maoist) Party of Afghanistan died of ill health on 16th December 2023. Several comrades became martyrs fighting with the enemy forces in the Palestine and

Kurd nationality liberation struggles. The CC pays humble homage to all the martyrs, heroic warriors and heroic women who laid down their lives and in other incidents.

The CC calls upon the Party ranks, PLGA forces, organs of revolutionary people, workers, peasants, students, youth, intellectuals and the entire oppressed classes and sections to observe martyrs' week from 28th July to 3rd August in memory of all the martyrs in the spirit of their sacrifices and revolutionary determination and to mobilise the vast masses in people's struggles; guerrilla war to fail the counter revolutionary war – 'Operation Kagaar' unleashed jointly by the Brahmanic Hindutva Fascist central government and the state governments with the ill intention to eliminate the Indian Revolutionary movement; and to organise the people, enhance mass base and subjective forces and advance the Indian Revolutionary movement with the strategy and tactics of Protracted People's War.

Revolution demands sacrifice. There is no instance in history where revolutions advanced and became successful without fight with strong determination, dedication, rigorous style of struggle and sacrifice. The struggles and revolutionary movements of the oppressed classes advance and ultimately gain success only with several sacrifices. In the Indian Revolutionary movement, thousands of comrades became martyrs in the country upholding the traditions of great sacrifices. The countering of intense repressive attacks of the enemy began since the time of the great Naxalbari Armed Peasant revolution. The party ranks, people's armed forces and the revolutionary people armed with the theory of MLM are clear about the objective of revolution and are fighting heroically amidst enemy offensives. When the mercenary police forces of the fascist government demolish the columns built by the people in areas of guerrilla war in memory of their beloved revolutionaries, they are rebuilding those, organising meetings in memory of the martyrs and paying homage to them. They are giving a fitting reply to the enemy. The revolutionary movement has been advancing in waves amidst several difficulties, losses, tears, bloodshed and ebbs and flows and ups and downs in the spirit of the martyrs. The sacrifices of the martyrs shall never go waste. Let us uphold their sacrifice and fight with the firm determination to achieve their great ideals.

Let us see in brief the distinct features of the ideal life of few important leadership comrades martyred in the past one year –

A relentless revolutionary mass leader and member of MMC SZC Comrade Dama (Srujan Singh Madkam) (64) died accidentally in 2023 October

while crossing a river. His martyrdom was the loss of a dedicated, reliable, determined, daring great leader of the revolutionary movement. He was born in a tribal middle class family in Murumgaon village of Dhanora tehsil of Gadchiroli district of Maharashtra. He was attracted to the revolutionary movement going on in the district in Dandakaranya and joined the Agriculture Labour organisation. He led people's struggles against the exploitation and oppression of the forest department, paper mill and contractors and was imprisoned. He became a full time activist and went underground in 1991-92. He held different responsibilities as member of the Party, Area Committee and Division Committee. He worked in the area of expansion of the revolutionary movement that started as Balaghat-Bhandara division and later developed into the MMC Special Zone. He worked in various levels and under various names and led class struggle and guerrilla war and developed into a member of SZC. He played a main role in the Special zone. He gained enormous confidence of the party cadres, guerrilla forces and people. He unhesitatingly went to any area that the party sent and led various areas and squads. He was a good fighter and a daring commander. He fought with the enemy in scores of encounters and led and saved guerrilla squads. He mobilised the people in a big way on various issues of the people, on the problem of displacement and against state violence and developed into a people's leader. He played an important role together with the then in-charge of the State Committee Comrade Deepak in exposing coverts such as Suresh, in expelling him from the party and exposing him among the people. Although he was suffering from high BP and diabetes, he worked ideally even in difficult conditions. When the revolutionary movement and particularly that of MMC faced a big loss with the martyrdom of various levels of 27 comrades including a member of the CC and MMC SZC secretary Comrade Deepak in the Pareva encirclement-elimination attack in 2021 November, Comrade Dama made commendable effort in sustaining the morale of the party ranks with his experience and far sightedness. His untimely and unexpected martyrdom caused severe loss to the movement in MMC. The initiative and determination of Comrade Dama in his three decades of revolutionary journey always remains ideal to the revolutionaries.

Comrade Joganna (Cheemala Narsayya) who served the revolutionary movement for 42 years was born in a poor Dalit family in Jayyaram village of Paalaturthi mandal of Peddapalli district of Telangana. He was 66. He joined the Agriculture Labour organisation and became part of the wave of anti-feudal struggle in the district. He was tempered in the furnace of class struggle. He was

in prison for 6 months in 1982. He never looked back since he became a full time activist in the PPW in 1983. Comrade Joganna fought for power to the tribal people of Dandakaranya on jal-jungle-zameen (water-forest-land), self-respect and identity. He was intertwined with the revolutionary movement in Gadchiroli. He started as an ordinary member of the Party and developed into a member of the Regional Committee. He worked amidst the ebbs and flows of the movement as a good guerrilla squad commander and a good party organiser. He stuck to the people and played a main role in building and sustaining the movement in Etapalli and Kasamsur areas for a long time. He did not waver when he lost one eye in an accident, while testing the improvised grenade made by Party. He daringly faced several enemy attacks in Gadchiroli district where there is intense enemy repression and led the Party and PLGA. Although the revolutionary movement went into temporary setback, he worked with undeterred confidence in the people, Party and the movement. Comrade Joganna and another five comrades were martyred heroically retaliating the offensive of the government police Commando forces in Kakur-Tekametta forest area on the border of Chhattisgarh-Maharashtra on 30th April 2024 as a part of Operation Kagaar. Four villagers were murdered in the incident. The Commando forces caught and brutally murdered Comrade Joganna who was tired and could not move. His martyrdom is a big loss for the movement. He was born in a basic class-oppressed section and gained the confidence of vast masses. His great ideals shall continue to inspire the revolutionaries.

Comrade Sagar (Santosh, Sridhar) was born in Dastagiripalli of Ankushapur panchayat in Kataram mandal of Jayashankar-Bhoopalapalli district of Telangana. He studied up to 10th standard. He was attracted to the anti-feudal revolutionary movement in the district and joined the party as a full time activist. He worked underground for 25 years as a daring guerrilla fighter, Commander, member of the Division Committee, Commander of Company-2 under the Central Regional Command (CRC) and the secretary of the Company Party Committee for the development of the revolutionary movement. Although the revolutionary movement had a temporary setback in Telangana and later all over the country, he worked with strong determination and great confidence in the oppressed people, party, revolutionary theory and revolutionary movement. He worked to the best of his strength to overcome the temporary setback in the revolutionary movement. He became a martyr with another two comrades in the encirclement offensive of the enemy forces in the forest of Poojari Kanker of

Karregutta area on 6th April. His role in the development of People's War-Guerrilla War shall always be an ideal for the PLGA forces.

The imperialists and the Indian exploitive comprador ruling classes are severely attempting to indiscriminately loot the oppressed people and their natural resources. They are instigating Brahmanic Hindutva fascism and are prepared to brutally suppress anyone who stands in their way. The central government in the leadership of Modi is aggressively attempting to transform the country into a Brahmanic Hindu state in the name of 'new India', 'Developed India', in order to facilitate the exploitation by domestic and foreign corporate Companies. It started auction for mining 20 different metals. It amended the Central Mines Act in 2023 November in this interest. The fascist Modi government and the state governments formulated and implemented the 'Surajkund' strategic plan in 2022 October and action plans in the guidance of the imperialists especially the US imperialists to eliminate the Maoist party, that is in the way of formation of the proposed fascist Hindu state, their exploitation and oppression, mobilising the people of the country to liberate them and stood as a genuine, stable alternate force for the people of the country, by the time of 2024 General elections. There were unceasing attacks in the rural areas and towns of the revolutionary movement that caused severe losses to us. However, the central and the state governments could not fulfil their ill intention due to the political and organisational struggle efforts and retaliatory actions of guerrilla war of PLGA and the revolutionary people in the leadership of our Party. Then the central and the state governments reviewed the implementation of their plan in 2023 October. In 2024 January the Central Home Ministry announced the new 'Operation Kagaar' Action plan – decisive war as a part of the counter revolutionary Surajkund strategic plan to eliminate the Maoist movement in the country in the coming 3 years. The main concentration in this plan is on Maad. All the strong centres of the revolutionary movement in the Central and the Eastern Regions will be changed into military hubs with full-fledged carpet security, there will be a concentrated attack on those to eliminate the Party, PLGA, Revolutionary People's Committee and people's organs and destroy the revolutionary movement. As a part of it the central and the state governments are unleashing encirclement-elimination attacks in Maad and in all the areas of the revolutionary movement. Although the present 'Operation Kagaar' is being unleashed as a war on the people as a part of the 'Surajkund' plan like the earlier 'Operation Green Hunt' and SAMADHAN, this genocidal war is being unleashed in a different manner and manifold intensity.

In this brutal genocidal war, there are indiscriminate massacres on the revolutionary people and Maoists. They are violating the people's right to live. they are violently suppressing the religious minorities, tribal people, women, Dalits, people of Kashmir and North East fighting for their rights and identity. In a way they are violently suppressing any voice of protest. This is absolute war of aggression. All this is violation of the fundamental rights of the people and the indigenous people of the country given in the Indian Constitution. We must see the losses to our party and the revolutionary movement in the past one year as a part of the fascist offensive.

Particularly, since the start of 2024, the mercenary police, Para-military, Commando forces are combing hills, forests, rivers and crop fields. As a part of 'Operation Kagaar' – they encircle the villages, indiscriminately fire, injure, brutally torture the people, beat them, arrest them, forcibly show them to have surrendered, maintain secret relations luring them with various kinds of reform programs, change them into informers, covert and traitors of revolution, imprison them, murder, commit atrocities on women, injure and kill the cattle. They loot, burn demolish the homes, destroy the utensils and pots, burn paddy, clothes and blankets, loot the money the poor people store in their homes, shell the camps of the Party and PLGA with 81 mm mortars, encircle the camps and murder the revolutionaries in large numbers, injure the people who go into the forest..., the police atrocities are unlimited. The people peacefully agitating for jal-jungle-zameen are lathi-charged, threatened with guns and chased away, people's demonstration camps are demolished with bulldozers, social activists are beaten with lathis and sent to prison. These have become a daily feature.

In the past one year (from 2023 August to 2024 May), the mercenary armed police, Para-military, military forces of the central and the state governments murdered 104 revolutionaries, 58 revolutionary people, on the whole 162 in a total of 22 encirclement-elimination attacks and 30 massacres in Bihar-Jharkhand, Dandakaranya (Chhattisgarh, Maharashtra), MMC, AOB, Odisha, Telangana and Western Ghats. Several revolutionaries were murdered in encirclement and indiscriminate firing. In West Singhbhum district of Jharkhand, Comrade Budhram Munda, Comrade Muchaki Mangdu of AOB, Comrade Kavitha (Lakshmi), Commander of Kabani squad in Western Ghats were killed in this manner. Several revolutionaries injured in the attacks of the enemy forces were severely tortured and killed. Four comrades of Telangana were served poison in the food by the police informer and when they became unconscious they were handed over to police. The unarmed four comrades were

brutally tortured and killed. The revolutionaries who escaped enemy's encirclement and took shelter in the village, those who took shelter due to ill health were picked up along with the people and were also caught and killed. In Aapatola-Kalpar encirclement attack in North Bastar, Operation Kagaar took an utmost cruel form. 29 comrades of the party and PLGA were massacred in this attack. While 12 comrades became martyrs heroically fighting the encirclement, 6 injured comrades who became immobile were caught and killed. Another 11 newly recruited comrades (out of whom 6 were unarmed) were caught, tortured, made to carry the dead bodies of the martyred comrades up to the road and killed on the road after vehicles arrived, on the directives of the Central Home Minister Amit Shah, the Chief Minister and Deputy Chief Minister of Chhattisgarh and the top officials of the state. Blood flowed on the road. When the revolutionary people's leader Comrade Joganna was lying in an immovable condition in hot sun due to old age while retaliating the encirclement attack in Kakur, he was caught, tortured and murdered. Comrade Parvathi injured in an attack near Sikaser dam in Mainpur of Chhattisgarh was killed by being deprived of proper treatment. Comrade Dasru was caught and murdered when he visited a hospital out of ill health in Kandhamal district of Odisha. In Balaghat of Madhya Pradesh, Comrade Kamlu who was saved by the people from the encirclement of the armed forces was later caught through information, severely tortured and killed in front of the people.

People of various villages collecting forest produce, engaged in agricultural work, rearing cattle, going to weekly markets in South, East and North Bastar were caught, utmost brutally beaten, tortured for hours and then killed. A 6 month old baby girl Mangli lost her life in the indiscriminate firing on the people in Muduvendi village of West Bastar. The police attacked Bellamnendra and Gottum villages in the midnight, caught the villagers deep in their sleep and beat them. When people went to get them released, they were lathi charged, indiscriminately fired and chased away. A few of them were shot dead and a few imprisoned. Women are ill-treated, sexually assaulted and killed in a countless manner. In Gampur of West Bastar, a woman party activist and a villager were caught, the woman comrade was brutally sexually assaulted and then both were murdered. In a massacre in Cheepurubatti of South Bastar, a village woman and a woman activist were killed after being sexually assaulted. They took away 9 villagers who saw this to hush up evidence. Their whereabouts are still unknown. When the people of Kakur village in Maad were gathering for a traditional occasion tried to flee out of fear on seeing the police, they were

chased and 4 killed. One of them fell with bullet injuries on both legs when he was caught and died. The armed forces are shooting the villages with mortars, grenade launchers and automatic rifles like foreign armies. An unexploded bomb that fell in a paddy field was mistaken by children as a toy who started to play with it. It suddenly exploded and two boys died in Bodaga village of Maad. The villagers of Gomangal of Maad were fired upon when they went to have forest liquor in which two lost their lives. Scores of villages were attacked and destructed. Arresting people in weekly markets and injuring several villagers and revolutionaries in police firing became an ordinary feature. In Eengmetta village of Maad, the police went like fishermen, caught and fired upon two youth after torture. Two villagers of Gomme of North Bastar were caught while they were hunting and killed after putting on olive green clothes to pose them as Maoists. People talking with revolutionaries in Bamra village of North Bastar were indiscriminately fired and three were killed. In Pidiya village of West Bastar, 2 unarmed members of PLGA were caught along with 10 villagers and brutally murdered. The forest of Got and Porro Padko villages was encircled and 7 activists of the Party and PLGA were massacred. A villager injured in firing was shot and another arrested was shot after taking him along for a while. In the Gobel forest of East Bastar six comrades were killed and in the Parshweda forest of Maad Division 8 comrades were murdered.

When we see these encirclement attacks and massacres, we understand that the intensity of the war of elimination – ‘Operation Kagaar’ on the people unleashed by the government by the Brahmanic Hindutva fascist Modi increased many times. In addition to the rise in carpet security, informer-covert-traitor network, there is a rise in speed and brutality of encirclement-elimination attacks. Massacres on the revolutionaries and people increased to create terror among the people in order to brutally suppress the people’s movements going on in the areas of the revolutionary movement and in other places of the country. Aerial-helicopter-drone attacks increased. There is an atmosphere of war in all the areas of revolutionary movement. The Modi government hides these facts and makes an ill propaganda that merciless attacks became inevitable in order to suppress the Maoist party and the revolutionary movement that stands in the way of transforming the country into ‘Developed India’ by 2047. In fact, the offensive is to fulfil the interests of the imperialists, comprador bureaucratic capitalist, feudal classes. It is making this unjust war on the people of oppressed classes, oppressed sections and oppressed nationalities. Our party

– CPI (Maoist) is making a just war of resistance – People’s War to protect the interests of the people.

The CC of our party assessed the consequences of ‘Operation Kagaar’ in time and released a circular formulating a counter plan. It made the necessary resolutions. It also stated to take the guidance of the circular formulated in 2023 to defeat the strategic ‘Surajkund’ plan. As per this circular we made certain efforts in the past one year. We are propagating that ‘Operation Kagaar’ offensive is against the interests of the oppressed people, against the environment, that it is traitorous and dangerous to the survival of the people of the country. We are making revolutionary propaganda in various forms that our party is making class struggle-People’s War in the interests of the oppressed people, for preservation of environment and in the interests of the country. We are making efforts to mould the opinion of the people at the international plan against the enemy offensive and in favour of the revolutionary movement and to gain the support of the people. The tribal and non-tribal people are fighting for several years in the leadership of our party and the various forums of United Front against the loot of natural resources in the forest areas by the domestic and foreign corporate companies and against the transformation of these areas into military hubs. They are fighting to preserve their jal-jungle-zameen, their life style, culture, identity, survival and environment. We are making efforts to mobilise the oppressed people and sections in people’s struggles uniting with the democratic, progressive organisations, forces, individuals and vacillating friends of the various open United Fronts against the policies of the central and the state governments that stabilise the exploitation and oppression of the imperialists, comprador bureaucratic capitalist, feudal classes and against its attacks on the entire oppressed classes, sections and nationalities, especially against the Brahmanic Hindutva fascist forces. We are making efforts to consolidate the active forces in these.

Several democratic, progressive forces of the country are demanding an immediate stop to the military actions on the tribal people of mainly central and east India. The organisations condemned the state violence and instigation of Modi and Amit Shah against the Maoists and the Muslims in order to gain Hindu’s votes in violation of election's code of conduct. The organisations protest that this is against the values of humanity and Constitutional administration and that it is nothing but human massacre.

The PLGA forces in the leadership of our party are taking up guerrilla war basing on the mass base in the leadership of our party. It eliminated 112 and

injured 246 policemen in the past one year. It eliminated 10 anti-people BJP leaders, 58 enemies of the people and enemy agents. It mainly took up small guerrilla war actions and efforts are on to make the people part of those actions. It also made two big actions by creating an opportunity. In a daring raid on the newly set up police camp in Dharmavaram village of South Bastar of Dandakaranya, thousands of revolutionary people and people's militia joined the PLGA forces in the leadership of the party in which 50 policemen were wiped and 90 injured. Three comrades became martyrs in this heroic battle. In another surprise raid on the police forces where a new camp was being set up in Jeeraguda village, 5 policemen were wiped out and 15 injured. Two comrades became martyrs in this daring raid. In the past one year, we have been daringly fighting against the enemy to the possible extent in the enemy attacks and considerably avoiding the losses to leadership at the central and state levels. But there were serious losses at the Division/District, area and village level organs. Especially, the state is making a vain attempt to make the forces of the party and PLGA immobile and create terror through encirclement attacks and massacres.

We are being informed by the people and the people's militia comrades about the police attack in most of the occasions. We could prevent losses wherever we were immediately alert. We faced more losses in places where we did not become alert and go away. In Edur, Korsel-Nendra, Aapatola-Kalpar, Kakur-Tekametta encirclement attacks, our comrades could prevent more losses with their daring fight and by breaking the encirclement of the police. At the same time if they would have worked with a correct assessment and proper tactics, we could have avoided much more losses.

Most of these losses were because we did not work in the guidance of the rules of guerrilla war, we did not keep in view the earlier reviews and since we were subjective in assessing the situation of the enemy and that of ours. The enemy had by now nearly completed carpet security plan and deployed forces in large number. Police camps were laid in short distances. If they know information about us, they are making surprise attack without giving us time and is encircling from far. If we undermine the enemy and are not alert in following the fundamental rules of guerrilla war – we retreat when the enemy advances; we harass the enemy in their camp; we attack when they are tired; we chase them when they retreat - and function in a casual manner in implementing secrecy, speed and change of place and other such things, we faced losses. We are unable to avoid losses because we are not changing our old open functioning; several teams are working in a limited area; loss of drive to maintain lively relations with

the people in large areas so as to enhance the mass base. On the other hand we are becoming immobile in places where we under assessed the enemy. As a result, there are more limitations in mass work-military work.

We are making people's war. Therefore we say that we can defeat 'Kagaar' offensive only through mobilising the vast masses of the country and intensify class struggle to enhance mass base. But we are not able to achieve the expected results. The reason being, lack of clarity in the leadership committees of the party and PLGA forces towards tactics of making class struggle-guerrilla war in areas of carpet security and lack of proper participation of the leadership committees in class struggle-guerrilla war. One more point is that there is not as much concentration on consolidation as is on mobilisation in mass work. There are weaknesses and limitations in making guerrilla war. There is no attention towards timely solving and controlling the informer network. There is failure in identifying the covert network arising in the local organs in time. Therefore we are unable to prevent unnecessary losses. We are unable to contain the aggressiveness of the enemy. We are unable to enhance mass base.

Dear comrades and people!

The worldwide economic crisis going on for a long time is intensifying daily. Along with the cut throat competition between the imperialists for redivision of the world, there is collusion among them in exploitation of the oppressed people and nationalities of the world. The Russia-Ukraine war is going on without stop for the past three years. Thousands of Russian and Ukrainian youth are being thrown into death trap in the war. There was loss to lives and property. Lakhs of people became homeless. Russia felt it could easily occupy Ukraine. The NATO alliance in the leadership of the US felt it could weaken and subjugate Russia. It did not happen. So it is trying to deploy armies in Ukraine. Since President Biden gave green signal to Ukraine to attack key/strategic targets including cities in Russian land and supplied long range missiles, Russia announced it would make nuclear war if necessary. On 16th May President Putin and China President Xi Jin Ping held a meeting and further strengthened mutual strategic relations. They stated that AUKUS, the military alliance formed between the US, UK and Australia is dangerous to the interests of Russia and China. Russia stated they oppose the freedom of Taiwan and support one China policy that views it integral to China. Later Chinese military manoeuvres around Taiwan gained momentum. Both these countries are moving in the direction of forming a security alliance together with North Korea competing with QUAD in Asia-Pacific area. Russia stepped out of CTBT in 2023 November. This exposed the

games of the imperialist countries in the name of this agreement. All the imperialist countries are raising defence budgets. They are strengthening their armies. After World War II Japan maintained its army for pure self-defence. It is now transforming it like those of the other imperialist countries and is arranging strategic deadly weapons. US has been developing an utmost dangerous nuclear arms system, the Conventional Prompt Global Strike (CPGS) for the past decade. It is attempting to establish nuclear missile camp in Britain. All these escalate the danger of World War III and the danger of nuclear war.

The boundless greed of imperialists for profit is making the lives of the oppressed people and nationalities further miserable. There are more attacks on the democratic and fundamental rights of workers and people. Political opponents are being pushed into prisons. Racism and fascism are instigated. There is a rise in attacks on women's rights. There are cuts in wages, social medicine and expenditure on education. There is social insecurity, unemployment and environment is being destroyed. There are economic inequalities. There is a new slavery and inequality between women and men. There is national suppression in colonial, semi-colonial countries. Semi-feudal exploitation and oppression are on the rise. Technological development is leading to massive unemployment and destruction of productive forces. Artificial Intelligence is severely affecting human labour force. Although environment is being destroyed, imperialists did not declare specific actions and decisions to protect the humankind. This bureaucratic attitude led to the failure of COP-28 in 2023 November in Dubai. This is a danger to the survival of the world.

Due to the economic, political and environmental policies of the capitalist-imperialist countries, economic crisis became an ordinary feature. As a result, the workers and other toiling masses and middle class people are intensely suffocated with unemployment, social insecurity, the insecurity of employment, decrease in real wages, high prices and other such problems. They are increasingly taking up long term strikes to solve their problems.

Due to the economic crisis in the capitalist-imperialist countries and the imperialist globalisation policies, workers, farmers, small and medium kind capitalists, women, indigenous people and other oppressed classes and sections of countries of Asia, Africa and Latin America are in the path of struggle. Anti-imperialist movements and democratic movements are developing. The imperialists are lending all kinds of support to their comprador ruling classes to brutally suppress these struggles. These are being drowned in blood. Palestine is one example. Israel is making genocide on Palestine with the absolute political,

economic and military support and deadly weapons from the US. Forty thousand people of Palestine have already been killed, most of them being women and children. Double the number were injured. Modi government played a reactionary role in regard to this war. The democrats and people of US and Israel and all over the world are demanding a stop to the genocide being unleashed by Israel. Thousands of students, intellectuals and lakhs of people are taking up militant struggles.

There were protest demonstrations all over the world against the counter revolutionary war on the people of India – ‘Operation Kagaar’, particularly the massacre unleashed by the fascist government forces in Aapatola-Kalpar and in support of the People’s War in India. The International Communist League (ICL) took up an Action week. Maoist parties of Philippines, Turkey, Austria, Afghanistan and other countries paid great homage to the comrades martyred in Kagaar offensive, especially in Aapatola-Kalpar.

Thus we see that the three fundamental contradictions in the world are intensifying. Conditions are growing favourable to revolution. The Maoist parties, organisations and groups must efficiently utilise these. We must develop mass base and subjective forces in the backward countries and make efforts to make preparations to make, begin, widen-intensify People’s Wars and must develop the organised strength of the workers, middle class and peasant masses in the capitalist countries, develop militant people’s struggles and make efforts to make preparations for Socialist revolutions. We must unite the forces in struggle against imperialism, against the danger of wars/nuclear war and the forces fighting for the protection of environment all over the world and widen-intensify the broad people’s movements.

Coming to the domestic scenario, in our country boasted by the exploitive ruling classes to be ‘the biggest democratic system’, the elections to the 18th Lok Sabha and another four Assemblies were held like a farce from April 19th to June 1st. The imperialists and their comprador bureaucratic capitalist corporate companies and the feudal class gave total support to the Brahmanic Hindutva Fascist Bharatheeya Janata Party with the assessment that their interests will be fulfilled only through bringing it to power for the third time. The RSS-BJP adopted and worked with a multipronged massive plan in the leadership of Modi-Amit Shah-Mohan Bhagawat since the past two years. They took up the slogan ‘above 400 seats’ and unleashed carrot and stick methods with the objective to institutionalise the exploitation and oppression of the imperialists, comprador bureaucratic, feudal classes through changing the Constitution of

India, annul the nominal democratic federal system in the country and transform it into a centralised bureaucratic system – ‘Hindu state’ in the name of ‘new India’ and ‘developed India’ by 2047, by gaining a big majority.

For the purpose, they utilised the entire RSS-BJP machinery in the country and the foreign countries, the government machinery, their hegemony on media, money power and muscle power and flooded the country with the constant propaganda of ‘Modi guarantee’. The Modi clique untiringly conspired to split the ‘INDIA’ alliance of the opposition parties, to attract few members through luring them with money or to foist and subjugate them with enquiries and imprisonments. The central government departments such as ED, CBI and IT were utilised as pocket organisations. It made vain attempt to divert the people from the actual problems by instigating Hindu communalism through attacks on the Muslims and the opposition parties, spreading lies, instigating anti-Pakistan national frenzy, instigating hatred towards Muslims and Maoists, Triple Talaq, annulment of Articles 370 and 35A, building of Ram Mandir, Uniform Civil Code (UCC) and other such things. In fact, it indulged in countless violations against the election regulation and the Constitution of India’. The ‘INDIA’ alliance was not enough organised, there were several contradictions and disunity in it, the people were not enough confident in it and all these helped the Modi clique. However much conspiracies the Modi clique indulged in the past ten years and whatever attempts the INDIA alliance made, none of the parties gained majority in the elections. However the people who could not understand the conspiracies of Modi clique and succumbed to its lure voted relatively more to the NDA alliance. Consequently BJP got only 240 seats, NDA on the whole 292, INDIA 233 and others 18. Therefore BJP had to step down a little and form a coalition government together with its allies with an ordinary majority. This suggests the intensity and political crisis among the ruling classes in the country.

In a way, people opposed the RSS-BJP Modi clique and the Brahmanic Hindutva fascist policies of feudal ideology of the times that RSS claims to be ‘golden era’ and unleashed by the Modi government representing imperialism, and comprador bureaucratic capitalist, feudal classes. People opposed the slogan of one nation, one people, one leader that wipes out the diversity of the country, the nominal democracy and leads to dictatorship and fascism. People have been constantly resisting the anti-people, imperialist sponsored globalisation (LPG) policies implemented in the past ten year rule. Students and youth made struggles on the problem of unemployment. There were countrywide people’s struggles against CAA. The tribal people are in constant

struggles against corporatisation-militarisation and for jal-jungle-zameen-identity and power. There were various kinds of massive subsidies, loans and NPA, waiver of loans to the corporate companies, foreign loans rose, value of rupee decreased to 84 rupees per dollar, demonetisation, cess policy that raises income to the centre, surcharge, GST policy that puts unprecedented burden of loans on the poor and the middle class and affects the income of the states, imposing centre's expenditure on the states, lack of real growth in the economy so as to create employment, rise in unemployment, decrease of purchasing power of the people, hunger, poverty, inflation, high prices, growth of the rich, rise in economic inequalities between the poor and the rich, difficulties and misery of the ordinary people, pro-corporate Acts, repressive Acts, violations of Constitutional Acts, misutilisation of Constitutional institutions, religious split in the country and problems of farmers and others increased the difficulties of the people. The opposition of the people out of all these and the anti-government vote failed the objective of BJP to gain above 400 seats. It could not even achieve ordinary majority. NDA alliance hides these facts and tries to deceive the people once more saying that there was multipronged development in the ten year rule of Modi, that this is the reason they voted for a strong government for the third time and that this was a historic people's judgment. In fact, the election results indicate that the people's judgment in these elections is against Modi and that it is a big blow to Modi politically and morally.

However, Brahmanic Hindutva Fascism is yet the main danger to the country. Economic crisis, economic inequalities, unemployment, inflation, poverty, bureaucratic rule, attacks of the Hindutva fascist forces on the oppressed people, sections and nationalities shall further intensify under the rule of NDA government in the leadership of BJP-Modi. This will intensify the four fundamental contradictions in the country. People's struggles shall further intensify. Democratic forces shall further come forward. Therefore our party and Mass Organisations must expose the class nature of the exploitive ruling classes comprised of Brahmanic Hindutva fascist ideology. We must make class struggle in economic, political, theoretical, social, cultural and all sectors against the government policies and ideology. We must develop people's resistance struggles on various problems with great enthusiasm, efficiency and firm determination into militant resistance struggles and broad political struggles. These must be linked with armed struggle in an appropriate manner. We can develop broad political struggles only if the party, PLGA and people's organs take

up collective practice utilising the organised strength of the people against the government policies that causes injustice and difficulties to the people.

Dear comrades and people!

Sacrifice, especially the highest sacrifice of life in the interests of the worker, peasant, middle class and other oppressed classes, sections and nationalities are selfless. People's interest would be the party's interest. The sacrifice shall have a permanent place in the hearts of the people. The comrades martyred in People's War left their last breath fiercely fighting with the enemy with the firm belief that we are fighting selflessly for the cause of people. In Protracted People's War we come across a rain of bullets and our comrades laying down their lives. These are inevitable in revolution. These will not fear communists. Communists understand that PPW advances only in a zig zag manner, that it is natural for wrong trends to arise and go forth patiently bearing difficulties, rectifying wrong trends with firm determination. They never lose courage.

Our shortcomings and weaknesses are causing heavy loss to the Indian Revolutionary movement, our Party, PLGA and United Front in the reactionary evil Kagaar multipronged operation of the enemy. Therefore we have to work strongly determined to overcome these. We need not feel disappointed or fall in despair on seeing our losses. We must also see our strength along with our weaknesses. In spite of any number of difficulties and losses we face, people believe that our party is fighting for the people. People are fighting. The brutal repression of the enemy shall lead to resistance. Whatever cruel, conspiratorial offensives the ruling classes in the leadership of Brahmanic Hindutva Fascist Modi unleash, people are leaning towards further militant struggles. They shall fight back those offensives. They wish an end to the fascist rule. Therefore they need a Maoist party that can provide leadership. Our party must rise to the occasion. The entire party must concentrate on mobilising and revolutionising the people.

Maoist politics are based on the collective knowledge of the party and the people. The party must develop it and raise the consciousness of its cadres and people. It must train its subjective forces. It must sharpen its strength to struggle. It must be trained ideologically, politically, organisationally and militarily and develop revolution. We must prepare the people in a proper manner to fight back and fail the Kagaar encirclement-elimination war plan of the central and the state governments. We must prepare the party ranks mentally and physically in the appropriate manner and utilise the organised

strength of the Party, PLGA and organs of United Front. Bringing a wave of several kinds of open and secret wave of protest of the people amidst the series of massacres of the enemy has a great importance in our movement. Our mistakes, the experience and the sacrifices today shall become sprouts for struggles and the development of movements in the coming time. People, Party, PLGA and United Front must overcome the initial confusion and lack of experience in the cruel Kagaar murderous offensive of the enemy. They must apply self-defence-offense in a regulated manner with self-confidence and develop guerrilla struggle. They must develop Maoist style of struggle. We must entirely concentrate to fail the reactionary, evil multipronged Kagaar plan of the central and the state governments. We must make self-defence, prevent losses, enhance our strength to develop guerrilla attacks and consolidate mass base. Ours is a proletarian party. It has the firm determination, revolutionary dynamics and class perspective to overcome its weaknesses. Overcoming difficulties and weaknesses gain the confidence and mobilise, consolidate the broad oppressed classes, sections and nationalities and lead them in the path it formulated.

Today although our party is a small force, it is causing fear among the imperialists, comprador bureaucratic capitalist and feudal classes. Brahmanic Hindutva fascist Modi government is trying to create terror through massacring the people at this time when the people's resistance and people's struggles in the areas of the revolutionary movement and outside in the leadership of the party are enthusing the revolutionaries and the people of the country and all over the world. In massacres in Edur, Korsele-Nendra, Aapatola-Kalpar, Kakur-Tekametta, Gobel, Parsheweda and other places, our comrades died in big numbers, but could give a blow to enemy's morale by resisting the enemy in guerrilla war. Heroic battle and death in the brutal attacks by the police, Paramilitary and Commando forces, escape by retaliation with the least opportunity, causing loss to the enemy when possible – the experience we gained and the blood we spilled in this Protracted People's War in this way are very valuable.

We must think which form of struggle, which form of organisation must be chosen to give a blow to the enemy according to the condition of the present movement, the condition of the people, the condition of the party and our strength of arms. We must raise mental and physical preparation regarding engaging our weapon on the enemy. We must courageously and stably engage the available arms on the enemy. Several incidents in our experience proved that we shall be protected only in this manner. The capacity of fighting of the police is mercenary. Mercenary police cannot fight keeping their lives at stake for

money. We must understand their strength and weaknesses. We must decide appropriate forms of struggle. We must combine guerrilla rules with our experience and enrich our practice. The organs of the Party, PLGA and United Front will consolidate, develop and have a qualitative change in a process amidst state repression. We can overcome these difficulties through principled organisation and by implementing secret methods of work. We can protect ourselves. We can have the initiative. We can give a blow to the enemy whenever we get an opportunity. Mao taught that protecting ourselves (subjective forces) to the possible extent, wiping out the enemy to the possible extent will be the objective of war. Protecting subjective forces means mainly the leadership, the party cadres, PLGA forces, people's organs and the vast revolutionary masses that stand as the base to all these. Members of the party today are the leaders of the party tomorrow. PLGA members in the present time are the PLGA Commanders in future, the present members of Mass Organisation are the future people's leaders. With this understanding we must lead active self-defence war in Maoist style of struggle in order to protect the subjective forces. We must do this work with this consciousness. The ideas that come from objective facts and based on it will be correct ideas. All the work and actions based on correct ideas are correct actions. We must make regular practice and only thus we can advance the objective of New Democratic Revolution.

The outdated, rotten semi-colonial, semi-feudal society is the cause of exploitation, oppression, suppression, unemployment and poverty of the workers, peasants, middle class and other oppressed classes, sections and nationalities. There is no chance for happiness for them. People can achieve liberation only by destroying the exploitive society through New Democratic Revolution and establishing genuine democratic system. There is no other way except for Protracted People's War.

Worker, peasant, other oppressed classes, oppressed sections and oppressed nationalities are very important participants in New Democratic Revolution that destroys the semi-colonial, semi-feudal Indian society. The exploitation, oppression and suppression on them will be in various specific forms. The proletariat is suffering from wage slavery, the landless, poor peasantry from lack of land, the middle and rich peasantry from non-remunerative agriculture. There is no proper employment for middle class. High prices and burden of taxes are depressing them. The Dalit people are miserable with the severe class exploitation and oppression. Although women prove their efficiency in all sectors, they are being discriminated as secondary citizens in this

male dominated society. The tribal people need authority on jal-jungle-zameen. The religious minorities need a secular society that protects them from the attacks of the religious chauvinists. Although all these are specific and separate in the total revolutionary plan and are partial political struggles, we need to fight to dissolve each and every form of exploitation and oppression and suppression. Our party leads revolution as a proletarian party organising the various oppressed classes, sections and nationalities. It utilises the various forms of struggle and mobilises the proletariat, peasantry, middle class, small and medium domestic capitalist class, the various oppressed sections and oppressed nationalities into political struggles and into the Protracted People's War to seize area wise state power. It continues revolution until establishing exploitation free world. "revolution might face difficulties, counter revolutionary waves might gain temporary successes, but the proletariat will certainly achieve the ultimate victory" (Political Resolution of the 8th Congress of the Russian Communist Party in 1919).

Program in the martyrs' week

1. We call upon the party ranks and oppressed people to secretly or openly pay homage to the martyrs and memorise their sacrifices depending on the situation at all work places in the villages, towns, cities, schools-college, universities, industrial and service sectors all over the country where our party units, sympathisers exist from 28th July to 3rd August.
2. This message from the Central Committee that – we have to mobilise the vast masses in people's struggles and guerrilla war to fail the war on people – the counter revolutionary 'Operation Kagaar' jointly unleashed by the Brahmanic Hindutva fascist Modi central government and the state governments with the ill objective to eliminate the Indian Revolutionary movement as a part of the strategic 'Surajkund' plan; and to organise the people, enhance mass base and subjective forces and work with firm determination to advance the Indian revolutionary movement – must be taken among all our party units and people. We must hold meetings in memory of martyrs to pay homage in open and secret methods as per the specific conditions in each and every street, village and town. Wherever possible we must invite the family members of the martyrs to these meetings, we must invite them on to the stage and introduce them to the people. We must ask them to speak.

3. We must hand over message of condolence, life histories of martyrs, photos and anything in their memory to their family members. We must share their difficulty and grief and extend the necessary support in various forms. We must make them stand strongly on the side of the revolutionary movement in the spirit of the martyrs.
4. We must take the booklet on the brief life history of our beloved leader martyr Comrade Anand published by the CC among the vast masses in all the areas of the movement all over the country. The life histories of martyrs must be published in the respective Special Area/Special Zone/State, Zone/Division/District and areas. We must release pamphlets, posters, brochures and banners upholding the ideal of sacrifice and the good habits of the martyrs. We must write and publish and widely propagate poems, stories and plays. We need to utilise print, electronic and social media with the necessary precautions. We must build and inaugurate columns in memory of the martyrs.
5. The revolutionary cultural organisations must prepare songs, group songs, group dances, plays and various forms of art on the life histories and sacrifices of martyrs and perform. We must also propagate through digital media.
6. Keeping in view the particularity of the respective areas, we must implement programs in various methods and forms. Unlike the earlier way, we must take up the program in a special manner as per the changing conditions, following secret methods in our movement and activities, speedily changing places. The martyrs' week must be observed like a political campaign – against the utmost brutal, inhuman murder of the people trampling their right to live, against the atrocity and killing of women, such as to increase class hatred on the enemy and to fail the counter revolutionary 'Operation Kagaar' with the spirit of utmost sacrifices of our beloved martyrs, by raising the political consciousness of the people and making agitation and propaganda.

Slogans

- Let us continue the ideals of the martyrs! Let us uphold high the great sacrifices of the martyrs!
- Let us oppose surrender to the enemy and betrayal to revolution! Let us fight determinedly to serve the interests of the oppressed people!
- Let us fail the counter revolutionary war on people – ‘Operation Kagaar’!
- Let us creatively apply the rules of Maoist guerrilla war! Let us avoid unnecessary losses! Let us develop the ratio of victories in guerrilla war!
- Let us intensify-widen anti-imperialist, anti-comprador bureaucratic capitalist, anti-feudal class struggle and enhance mass base!
- Let us mobilise the broad secular democratic forces to fight and defeat Brahmanic Hindutva fascism!
- Let us give the slogan to immediately stop the imperialist proxy war in Ukraine and the genocidal war of Israel on the people of Palestine with the support of the US! Let us unite the forces working with the slogan of freedom and democracy to the oppressed nationalities and people of the world and fight!
- Let us intensify-widen class struggle-guerrilla war!
- Let us go forward with the objective to develop Dandakaranya, Bihar-Jharkhand, East Bihar-North East Jharkhand into liberated areas!
- Long live Marxism-Leninism-Maoism!
- Long live World Socialist Revolution!
- Long live New Democratic Revolution!
- Long live Communist Party of India (Maoist)

2024 June 18

**Central Committee
Communist Party of India (Maoist)**
